

DV Hub

Co-curricular Activities

DV Hub provides and manages engaging after-school programs for both MOE and international schools. Due to COVID-19, we have converted our established CCAs into E-CCAs to continue learning while social distancing.

#1

Guzheng

The Guzheng program is our most popular program and has ran in more than 10 MOE schools. The Guzheng is a traditional Chinese instrument that can help students develop their musicality. Most of our Guzheng instructors were trained in prestigious music institutions in China and have helped our students achieve numerous medals at the Singapore Youth Festivals.

#2

Gymnastics

Our beginner-friendly gymnastics program is currently in place at International schools. The program is designed to help students develop strength and balance. Our gymnastics instructors have decades of experience in coaching. Most of our coaches have university degrees in Sports Training.

#3

Martial Arts

Our Martial Arts programs include Mixed Martial Arts, Wrestling, Taekwondo, Boxing, etc. These programs are currently in place in international and MOE schools. Alongside the skills, the classes teach physical well-being, self-defence and discipline in a safe environment. Our instructors are mostly former national athletes and/or coaches for Singapore.

#4

Wushu

Wushu, a form of martial arts originating from China has evolved into an international sport competed worldwide. This program is currently offered at international schools across Singapore, both as part of a Chinese cultural enrichment program and as a dedicated CCA/ECA. Our lead coach for Wushu is a former gold medalist of the 1993 SEA Games.

#5

Photography Club

Our Photography program is led by a coach who has exhibited his photographs and documentaries internationally. The coach is interested in empowering students to use their cameras to tell stories.

#6

Debate Club

Our Debate Program is beginner friendly and is currently running at international schools in Singapore. Learning to debate helps students build confidence and research skills. Our debate coaches are mostly former debaters who are pursuing law degrees at the National University of Singapore.

#7

Signature ICT program

Our Information and Communication Technology (ICT) program was developed by a tech entrepreneur, who identified technology skills that children should have, to prepare for the 4th Industrial Revolution. The program trains primary school children on the following:

- Being safe on the Internet
- Digital Literacy (emails, word documents, google search etc)
- Introductory Coding using the children-friendly Scratch software
- Introductory ARVR content creation

Contact us to find out how you can bring these programs to your school today!
